Final Greetings from Our Supporters

✓ 러블린

Joining the 2025 supporters was such a lucky experience for me! Because my major can be quite stressful and isolating, communicating with the international students was a huge healing experience. A big thanks to the Office of International Affairs teachers for always welcoming us warmly and taking such good care of the international students. To my 2025 supporters team, thank you for making everything so fun. I love you guys! Let's definitely keep seeing each other in the future.

It has been a great honor to be part of this team with supporters from various countries over the past six months. Although I was lacking in some ways, the incredible support from our members and the Office of International Affairs teachers helped me successfully wrap up my activities. I will not forget my time here. Thank you so much.
